## 2025 Bulls from Cornell Farms

Cattle prices are at record highs and climbing. Yet the industry seems reluctant to expand. We run purebred Red Angus and Polled Hereford cows like commercial cows. We are focused on traits that build cow herds. Udders, feet, temperament with the ability to graze and wean a great calf year after year. No creep feeders or show halters here. Our bulls offer an opportunity to get your replacement pen ready for the inevitable downturn coming in the cattle market. Feel free to call or stop by anytime to view the bulls.

**The Cornell Family—Kim, Pat, Rebecca and Kelsey**

### Two Year Old Bulls for Sale

#### Definition of Terms

**CE:** Calving Ease

**BW:** Birth Weight

**AWW:** Adjusted Weaning Weight

**ADG:** Average Daily Gain

**SC:** Scrotal Circumference

**AYW:** Adjusted Yearling Weight

**FS:** A score determined by a mathematical calculation involving age and hip height—an indication of what the mature size of the animal will be.

**BW EPD:** Measures how much above and below the breed averages an offspring will gain due to the parent.

**CE EPD:** Predicts the ease with which the progeny of the animal should be born.

**WW EPD:** Reflects progeny growth difference up to 205 days. **YW EPD:** Reflects progeny growth from weaning age to yearling age,

**TM EPD:** Combines the genetics for pre-weaning growth and the influence of milk on the weaning weight of the daughter's progeny.

**MILK EPD:** Indicates the ability of a sire's daughters to provide their calves with an environment which encourages growth from birth to weaning through milk production and mothering ability.
